

SUN
BEAMS

By WALTER M. BARRETT

The holidays are past and now we can all settle back down to work, but with the prospects of one of the brightest years in history facing us, the work isn't going to be nearly so tough. From all indications, and from reports of learned economists and others, 1937 will be a "little dandy". It is up to us right here in Truckee to see that locally, at least, this promise is kept. No community or person can progress without effort. By pulling together we can not only keep up with the general upward trend of prosperity, but can set a pace for others to follow.

So much for this week's "pep" talk.

From every side comes stories that Winter Sports are gaining momentum and although still in their infancy is fast becoming recognized as the best and most popular of all sports. People are just learning what a delightfully invigorating and health producing recreation skiing, tobogganing and skating really are. We met folks here Sunday who had never before enjoyed the pleasure and although they were not prepared for the brisk chill of the atmosphere they frolicked for hours in light clothing. They marveled at the fine climate and most beautiful scenery, promising to return often and bring friends. There are thousands of others who, once they have experienced the thrill of winter sports will become devout followers of the snow lanes. Many of these thousands will visit Truckee where the most ideal places in the west to enjoy to the fullest the many snow sports is available. Each one of us should encourage outsiders to visit here at least once during the winter sports season and the odds are great that they will return unbidden if they are made welcome. They certainly cannot find a better place to enjoy the winter sports.

One of the busiest, and we need not qualify this by saying one, but the busiest man in all Truckee during the winter season, when snow sports are at their height, is 'Ed' Edmunds, manager of the winter sports here. We watched "Ed" "do his stuff" Saturday and Sunday at the snow grounds here. Between attending his personal business as head of the utility district, no small task in itself, he was up and down the long flight of stairs leading to the pavilion no less than ten times, seeing that this party had skills, keeping the electrically operated toboggan going, scurrying down to see how work was progressing on the ice rink, answering this and that person's inquiry concerning places to go and things to do; preparing publicity, attending the wants of visiting publicity men and sundry and diverse other jobs all of which he does willingly and purely in the interests of the community. He deserves lots of credit.

The cast preparing to present "Kempy" at the Masonic hall here tomorrow evening has been working diligently to give the Truckee public a really worthwhile entertainment and provide sorely needed funds for the Parent Teachers Association. It is a cause well worthy of support and the participants are to be commended.

It is said that more snow falls between Truckee and Soda Springs than in any like area in the entire United States. That's a broad statement but despite previously published doubts, we are beginning to believe the story and we like it.

Recovering from illness—
Mrs. R. P. Bick is recovering from an illness that confined her to her home during the past week.

Southern California Beckons—
Mr. and Mrs. A. C. Marts left on Monday to enjoy a vacation in the southern part of the state. They plan to be gone for several weeks.

Houseguests During Holidays—
The H. S. Eaton home here was opened for the holidays by Mrs. Eaton of Roseville and she had as her houseguests her grandchildren, Adele and George Eaton of the valley town, Mr. and Mrs. Harry Eaton of Carson City, Hilton Eaton of Sparks, Nevada, Mr. and Mrs. V. Jones of Sacramento, and Mrs. Harpending of Sparks.

Chamber to Meet at Besio's—
Besio's restaurant will be the luncheon meeting place for the Truckee Chamber of Commerce on Monday, January 11.

WINTER SPORTS SEASON OPENS WITH MANY FANS

Ideal Weather Marks First
Of Winter Season
In Truckee

MORE EVENTS PLANNED

Snow Is Right for Skiing as
Local Experts Get
Into Condition

Truckee's 33rd annual winter sports season was ushered in here during the New Year's weekend, when a huge crowd of visitors and local snow sports enthusiasts turned out to take advantage of the ideal weather and snow conditions to frolic on the local ski grounds.

The ski jump was prepared and a number of jumpers made initial trials, preparing for future events.

The electrically propelled toboggan slide was gotten in shape for the season and is expected to prove a popular recreation.

The ice rink was snowed under so that it was not available, but efforts are being continued to get it in the right condition for the future.

Several events are being contemplated for the future, Manager C. Edmunds announces, the annual Fiesta of the Snows being slated on the calendar of events for the coming week end.

DEADLINE IS FIXED FOR SECURING NEW LICENSE PLATES

The deadline for automobile registrations has been set for February 4 by the officials of the state motor vehicle department. After that date penalties will be charged. Truckee residents will be able to obtain their plates at the checking station west of town upon showing the proper credentials, relieving them of the necessity of sending to Sacramento.

It is believed that approximately 2,500,000 vehicles will be registered for 1937.

DOG INJURES MASTER

"MICKY", pet dog belonging to James Melver, Jr., is in disgrace temporarily following his attack on his master who was trying to separate two of the animals that were fighting furiously.

Molver had to have two stitches taken in the flesh just beneath the left eye by Dr. J. H. Bernard.

Returns Home—
Arthur Ellert, who has spent the past three weeks vacationing in the Sacramento and San Francisco areas returned to Truckee Wednesday night. He reports cold weather in the valley towns.

TRADE IN TRUCKEE YOUR MERCHANTS HELP YOU—

Negotiation For Ice Lake Lands Nearly Complete

Two Signatures Necessary to
Close Deal for
Club Site

The signatures of Mrs. William Haman of Roseville and Lieutenant Claude Haman a naval officer, who own half of the property are necessary before the proposed \$100,000 club house can be erected on an 1800-acre tract embracing Ice Lake about two miles from the Donner highway on the road to French Meadows, according to a recent report.

Negotiations between Dr. J. G. Mackey of Auburn and Commander C. E. Edwards of Mare Island has resulted in the former signing papers to convey his half interest in the land to the group of service officers headed by Edwards who propose to establish an Army and Navy Sierra Club.

The required papers had not been filed with Mrs. Sarah M. Ekberg, county recorder on January 2.

Slight Gain in Auto Deaths is Made in County

Death Toll in State Will Be
Over 3,000, Report
Indicates

One more person was killed in automobile accidents in Nevada County during 1936 than in the previous year, according to Captain Joe Blake of the California State Highway patrol.

Ten persons were killed in highway accidents in the county last year, but Captain Blake reported a 25 per cent decrease in the number of major accidents.

Ray Ingels, state director of motor vehicles, said the deaths during the past year in California will break all previous one-year records.

Official figures will not be compiled for several weeks, but Ingels estimates that traffic fatalities will exceed 3,000 as against 2,806 for the year 1935, the record year up to that time for casualties on the highways.

NEWSREEL MEN HERE TO TAKE SCENES IN TRUCKEE AND LAKE

Several of the major news reel companies had cameramen located in Truckee last week taking shots of the first snow fall of the season and other scenes of interest and beauty.

Several scenes were taken in the Truckee area and then the cameramen spent Sunday in the Lake Tahoe region where they added to the splendid collection of pictures.

The Southern Pacific also had a couple of cameramen and publicity men here, taking advantage of the local color and giving the Truckee area some nice publicity.

STATE PLANNING TO SPEND \$300,000 ON RENO HIGHWAY

Appropriations are Made in
Biennium; Nevada
County Gains

PLAN HUGE PROJECT

Downieville Highway Will
Be Included in setup
By State

Nevada County, especially the east portion will be greatly benefited by state highways during the coming the \$73,700,000 to be expended on the biennium, according to the state highway commission's report, released through the United Press this week.

Under the approved budget Nevada County will receive \$400,000, of which \$300,000 will go toward grading and surfacing 10 miles of the highway from Hirschdale to the Nevada line. The Downieville road will receive \$100,000 for grading and surfacing.

Of the total amount to be spent in the state, \$27,576,900 will be available for major project construction on 14,000 miles of state primary and secondary highways. The balance is to be used toward constructing and maintaining county and city highways, maintaining state highways and paying administrative costs.

Several other contracts for grading and surfacing highways in this area are contemplated and already awarded, including the 125,000 job of paving and realigning Route 40 from Soda Springs to Donner Summit grading and realigning the state highway from the foot of the Donner grade to the east end of the lake, and a parking space at the bridge on Donner grade.

MRS. PITTS HOSTESS TO BRIDGE CLUB AT HER HOME HERE

Mrs. E. Pitts was hostess for several members of an evening bridge club at her home recently. Mrs. Walter Loynd held the high score when the games were concluded. Mrs. Eldon Tonini was second and the consolation token was awarded to Mrs. E. L. Loynd.

The genial group enjoyed a supper at the close of the evening.

HURT IN ACCIDENT

GRASS VALLEY, Jan. 7.—The 10-year-old son of Mr. and Mrs. K. C. Cort of Sacramento, who came up to Grass Valley to enjoy the snow sports and sledding last Sunday, crashed into a tree trunk with his head at the end of one of his rides, requiring medical attention.

Goos to San Francisco—
M. G. Gilbert was a business visitor in San Francisco this week.

Youth Skis Nine Miles to Attend Truckee School

Bill Otis, freshman at the Meadow Lake Union High school, residing at Hobart Mills, proved his ambition to resume his studies after the recent vacation and his prowess as a skier by attending school, nine miles from his home, when the bus used to convey the students to the local school failed to make the trip on Tuesday.

Young Otis was undaunted by the snow storm that kept the conveyance from making the daily trip with the out of town pupils, put on his skis and reached classes late but triumphant over the elements.

George Tonini Injured in Car Mishap in Reno

Wife and Child also Hurt in
Auto Accident on
Reno Street

George Tonini of Virginia City, son of Mr. and Mrs. Benjamin Tonini of Truckee, received serious injuries in Reno on New Year's Day when the car he was driving and another machine collided.

Mrs. Tonini and the couple's small son were superficially hurt in the collision.

Tonini was taken to the hospital where it was feared for some time that his injuries were more serious than they really were. He was unconscious for several hours.

Later he was removed to his home where he is reported to be recovering satisfactorily.

KEMPY WILL BE PRESENTED HERE TOMORROW NIGHT

All is said to be in readiness for the presentation of Kempy, a three-act comedy to be shown at the Masonic Hall tomorrow evening. The cast of local talent has been working hard rehearsing parts.

The show is being given as a benefit for the Truckee Parent Teachers association.

POLICE CHIEF MAY TAKE LAKE TAHOE RESORT LOCATION

Rumor has it that Chief of Police William M. Hallanan of Sacramento may take over Hunters Lodge situated on the shore of Lake Tahoe when he retires from active duty in the near future.

The lodge is situated not far from a cabin completed last summer and owned by the capital officer.

Friends seem to doubt as to the seriousness of the contemplated move but he is said to have declared that he will take another retiring policeman as a partner.

TRAINS DELAYED BY ENGINE TROUBLES NEAR EDER WALL

Two Southern Pacific passenger trains, No. 30 and No. 28, were delayed about four hours Tuesday morning when the former developed engine trouble near Eder Wall. It was reported that a steam line froze on the big engine and a relief engine was sent out from Truckee to bring the train in. Both trains were east bound.

Passengers suffered no ill effects from the delay.

MISS EDMUNDS WILL REPRESENT LOCAL CLUB AT AFFAIR

Miss Elsie Edmunds, daughter of Mr. and Mrs. C. Edmunds of this town, has been named to represent the Truckee Outing Club at the 5th annual Winter Sports Carnival to be held in the Sacramento Memorial auditorium next Saturday, when a ski queen will be selected.

WORK EXPECTED TO START SOON ON BOCA PROJECT

Foreman Arrives Here to
Start Work as Soon
As Possible

AWAITS FINAL WORD

Long Tunnel Will be First
Step in Building of
Boca Dam

Anticipating the early approval of the low bid of \$729,435, exclusive of the right of way and engineering costs, submitted to the federal government by the George W. Condon Company of Omaha, Neb., for the Boca dam project, George McGuire has arrived in Truckee to await the sanction before starting the preliminary work on the dam site.

The tentative plans call for 800 feet of tunnel at the site to convert the water while the building of the dam is in progress.

Approximately 30 men, some arriving from the concern's headquarters and others to be engaged locally will probably compose the skeleton crew for the winter with McG in charge of the cement work.

The actual cost of the construction, which will undoubtedly get under way in the early spring, will be about \$1,000,000 for 40,000-acre feet of storage capacity.

The work to be done by the Omaha firm, calls for completion at the end of 800 calendar days.

Mrs. McGuire and son Billy, who has already enrolled in the Truckee grammar school, came here with McGuire and plan to make their home in Truckee until the dam is complete.

They have taken one of the O'Hanrahan apartments.

COLDEST WEATHER SINCE 1932 STRIKES TRUCKEE DISTRICT

The coldest weather to be experienced here since 1932, was felt in the Truckee area Thursday morning when the temperature dropped to 32 degrees below zero at the Southern Pacific depot. The forest service reported that the thermometer at the Truckee station stood at 21 degrees below.

The cold snap was felt over the entire state, according to reports received here. Sacramento suffered when the mercury dropped to as low as 24 above.

Reports vary concerning the cold at Boca and Floriston. It was said to be between 32 and 35 degrees below, however, by the most authentic reports.

No damage other than frozen water pipes, car radiators and motor trouble, was reported as the result of the fall in temperature.

FRIENDS FETED BY MRS GREGORY AT BRIDGE GATHERING

Mrs. R. L. Gregory entertained a group of friends at her home on Tuesday evening. Auction bridge occupied the guests pleasantly, the hostess serving refreshments late in the evening.

Present were Mesdames Edward Pitts, Walter Loynd, Stanley Martin, Elden Tonini, Clair Goode, Larry Zoebel, Andrew Oroz and E. L. Loynd.

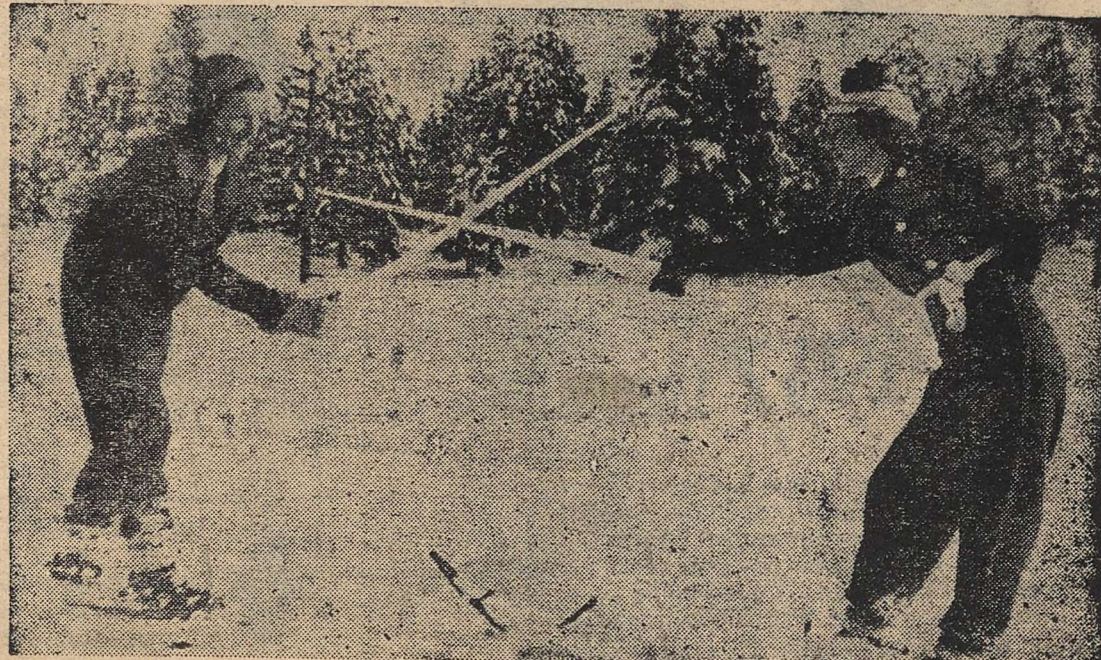

Mrs. Clair Goode was the recipient of the first award. Mrs. Zoebel was second and Mrs. Tonini was given the consolation award.

LEGION DANCE WAS WELL ATTENDED

Success marked the New Year's eve dance held at Masonic hall here last week under the sponsorship of the Truckee Post of the American Legion. The music, according to the opinions of the dancers was good and the crowd, although not as big as expected thoroughly enjoyed the entertainment.

VOICE OF THE PEOPLE

They have swung into action at Sacramento.

With the past blunders forgotten and a clean slate to write on, a new legislature full of new hopes and enthusiasm and many new members, rolls up its sleeves and goes to work on California's problems.

Will they botch the session, or make a resounding success of it? The answer to that question rests on nothing new. It depends on the same old fundamental that has faced every legislative gathering since the senate of ancient Rome first convened.

Let them listen to the voice of the people. Let them hear it and obey its bidding.

Seldom is the people's voice among the loudest ones. The loudest are usually those of pressure groups. More often than not the people's is nothing more than the still small voice of the lawmaker's conscience.

But fortunately this year, on several important matters, California's legislators have the emphatic roar of the peoples voice still echoing in their ears. Just last November, millions of voters expressed themselves on state measures ranging everywhere from liquor control to art museums.

This new legislature can turn deaf ears to the pressure groups and listen for the voice of the people. Will it? At least we hope it will.

THEY'RE GETTING JOBS

An unusual item of much significance popped into the news the other day.

"Tramps" discovered riding the brake beams of atop box cars of 76 principal railways numbered a million fewer during the six months ending last October than in the same period of 1935, the total warned off trains and right-of-ways dropping to 2,369,162.

That is the best of prosperity news. It means a sharp reduction among the homeless, many of them mere children, who have drifted aimlessly about the country like human flotsam on the tide of the depression.

The large decrease in the number of "tramps" proves the homeless legions are getting jobs and a new hold on life, and that one of the worst depression wounds is healing.

WHY WORRY?

Everyone ought to make a resolution not to worry, during 1937, about anything. For there is nothing that will torture a man quite so intensely, or wear him down quite so thoroughly, as worry.

If men didn't worry they could enjoy what they already have. If they didn't worry they could step out with minds free of phantasms and go after the things they need to bring them more happiness.

And yet, as life grows more complex, men are worrying more. A recent survey disclosed that, in the past decade, admittance to hospitals for nervous and mental diseases - - to which worry is the chief contributor - - increased from 47.8 to 53.3 per 100,000 population.

What have most men to worry about anyway? You're not making enough money, you say? Or you are not developing into the big shot you once dreamed you might become? Or perhaps you are perplexed as to what life is all about.

But are those troubles so hopeless after all? A man usually knows how he can make more money, if he would only put into play a few of the better thoughts he has had. As for the dreams of the great accomplishments, it is often comforting to remember that every man who ever breathed has fancied himself in the high places. And as for life itself - - well, who does know anything about it really?

The secret of the happy man is that he saves the mental energy that worry consumes - - saves it for doing his best on actual problems as they arise.

All the World's a Stage—All the People Merely Players—SHAKESPEARE

Politically Speaking

By GEORGE E. HELMER

United Press Staff Correspondent

SACRAMENTO, Jan. 7.—(UP)—Among the outstanding wishes of Gov. Frank F. Merriam as he approaches the beginning of the 52nd legislative session is that present revenue measures will be left alone and that no large budget increases will be voted by the lawmakers.

Merriam wants to balance the 1937-39 budget, and he feels he can do it if present tax measures are not altered and revenue continues pouring into the treasury at the rate of the past several months.

But if the sales tax is lowered or large budget increases are granted, his hopes of getting on a cash basis and at the same time retiring the deficit may go glimmering unless substitute revenue measures are devised.

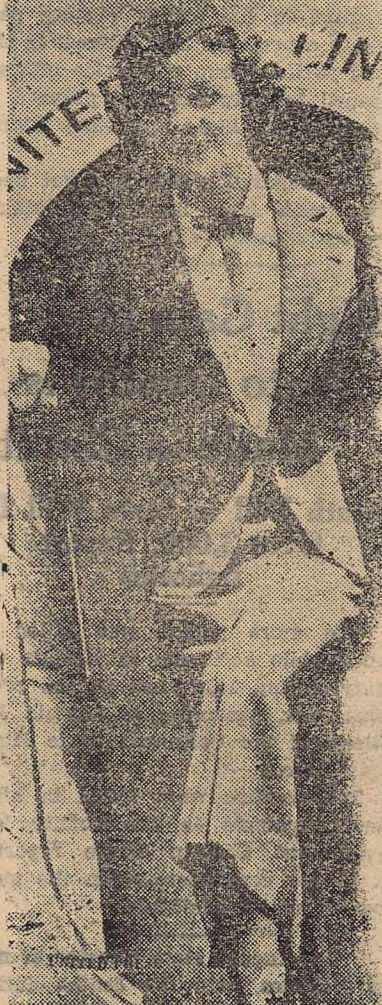

He would like to devote the administration's part of the legislative program to reorganizing state departments, making them more economical and efficient.

For example, the unemployment relief administration may be made a division of the state department of social welfare. All state law enforcement bodies may be placed under one department.

From the governor's viewpoint, the session could be short and snappy, since no new taxes are needed and there will probably be sufficient revenue to pay the next biennial bills. But there was little belief the absence of some of the major problems of two years ago would shorten the legislative meeting to any great extent. There remained sufficient controversial subjects to keep the lawmakers arguing for many weeks.

So far as the budget bill was concerned, Merriam said he hoped the general fund would be no larger

Dies On Duty

than it was two years ago, but he admitted the total budget would exceed the \$431,000,000 appropriation of 1935-37 because general funds will have more revenue to spend and certain fixed charges cannot be controlled on their steady march which goes upward with the population growth.

Christian Science

In all Christian Science churches, branches of the Mother Church, The First Church of Christ, Scientist, in Boston, Mass., a Lesson-Sermon will be read Sunday, January 10, on the subject, "Sacrament."

The Golden Text will be: "Thou preparest a table before me in the presence of mine enemies" (Psalms 23: 5).

supported by special funds spend just as much as they receive in fees and special taxes. Many of the general fund department expenditures cannot be controlled very well. For example, as the population of state hospitals, asylums and schools increases, expenditures must increase. Similarly, more and more elderly people are becoming eligible for old age pensions.

The institutions will receive primary consideration in the budget. State hospitals are so overcrowded that immediate relief is essential. Teaches colleges and the University of California will have to wait, however, unless they can devise some means of raising money without increasing the taxation.

There have been reports circulated that the administration would sponsor a state police bill. Merriam de-

niel this, saying he had given it no consideration and knew of nothing on that subject except that he had read it in the newspapers.

The state police bill will be one of the controversial measures submitted to the lawmakers. There may be several versions, one of which may propose placing the highway patrol under supervision of the state department of criminal investigation and identification. That would be an direct method of converting the patrol into a state police force, officials believed.

Whatever form the proposed measure may take, it will have the strong opposition of labor, and it is doubtful whether the Merriam administration will take any part in proposing it. (Continued on Page 5)

TAHOE REGION NEWS

By Swanee

KELLY AUTHORIZES SMALL FUND FOR HIS OWN COUNTY

SACRAMENTO, Jan. 7.—(UP)—Metropolitan individuals and organizations who had labled Earl Lee Kelly a "cow county" public works director because he sometimes shows more interest in outlying highways than in city thoroughfares cannot accuse him of showing partiality to his own county — Shasta.

When the 1937-39 state highway budget was released — and Kelly had a hand in it even though it was drawn up and approved by the highway commission — it revealed that only \$25,000 of a \$27,576,900 total had been allocated to Shasta County.

"Well, they certainly cannot accuse me of pork-barrelling for Shasta county," Kelly said, recalling that certain San Franciscans had openly accused him of being a cow county director because he appeared to have forgotten there were highways in the San Francisco bay area.

The new budget set aside \$1,760,000 for the bay region.

"Now I don't know whether it's safe to go home," Kelly said.

BOOTLEG LIQUOR IS SOLD BECAUSE OF HIGH TAX IS CLAIM

SACRAMENTO, Jan. 7.—(UP)—Consumption of bootleg liquor in California amounted to almost 25 per cent of the legitimate liquor consumed in 1936, George M. Stout, the state liquor administrator revealed.

Stout based his estimate on a report from Louis Gilgert of the California Distilled Spirits Institute, and blamed the situation on high taxes on legitimate alcohol.

Estimates for the entire United States ran as high as 50 per cent.

"Bootleggers are attracted to bootlegging practices by the demand for alcohol and the enormous profit to be made," Stout said. "With the federal tax at \$2 and the state tax at 80 cents a gallon, there is \$2.80 in taxes on spirits that the bootlegger dodges on a product that costs about 25 cents to produce.

"Reduce the taxes to the point where the legitimate dealer can compete with the bootlegger in price and the bootlegger is gone."

OLD WALNUT TREES PROVIDE PRESENTS

GERBER, Jan. 7.—(UP)—Walnut trees planted in the Tehama grammar school grounds nearly half a century ago provided Christmas presents for the students this year.

Pupils of the school gathered seventy bags of nuts which had fallen from the trees. Sold to candy manu-

MANY TAKE PART IN SNOW FROLIC AT LAKE TAHOE

TAHOE CITY, Jan. 7.— Putting on her finest winter regalia, Tahoe offered a fitting background for the hundreds of gaily clad winter sports addicts who swarmed over the region during the New Year's holidays.

Many private homes were opened for the occasion while Tahoe Inn, English Villa, Wagner's Camp and Brockway Vista enjoyed popular patronage.

The snow, which averages three to four feet in depth in most sections, was in excellent condition for the gay ski, ash can cover and toboggan parties which covered the hills and overran the golf course. Constable Harry Johanson was kept busy giving the city visitors the thrill of their lifetimes behind his fleet team of Alaskan huskies.

New Year's Day and Saturday were delightfully warm and sunny, although at night the thermometer dropped to as low as 9 degrees above, leaving long, graceful icicles on the many roofs of the village. Almost every passing car towed groups of skiers or tobogganers who are enjoying in increasing numbers, this new form of the old sport. Snow-planing or motor skiing, it is to be called.

Tahoe Inn was filled to overflowing with the gala holiday throng bent on fun and exercise, coming from far and near. A special dinner was served on New Years and dancing was enjoyed to a late hour, many of the town's younger generation participating.

The guest list included some of the state's most prominent families, among them Mr. and Mrs. M. P. Lilienthal of San Francisco and party of 11; Mr. and Mrs. Allan Wiel, Robert Lilienthal, Miss Frances Newman and Mrs. Wiel's daughter; Mr. and Mrs. S. R. Wagner, Mr. and Mrs. R. S. Gamble, Mr. and Mrs. H. J. Hollander and two sons all of Oakland; Mr. and Mrs. S. W. Newman and son of San Francisco; Mr. and Mrs. R. Arnstien of the same city, Lawrence L. Haskell and Mr. and Mrs. A. Sholl, Mr. and Mrs. H. Goldman, Mr. and Mrs. S. Levy and Mrs. Haskell of San Francisco; Dr. S. M. Mose of San Francisco and party of three; Mr. and Mrs. L. H. Hills and two daughters, Paul E. Cooper, Irving Manning of Berkeley, Robert Eisman of Palo Alto; Don Lisberger, and Mr. and Mrs. A. Tietjens and William Haas and party of three of San Francisco.

facturers, the return amounted to \$32.90 which provided a present for each student when the school's party was held at Christmas.

Tahoe Ramblings

(By SWANEE)

Professor and Mrs. Henry Hinkle returned on Sunday night from their motor trip to Virginia where they remained for four days and where Professor Hinkle was guest speaker before the National Modern Languages Association meeting at Williamburg. Other towns, rich in historic lore, visited by the Hinkles were Richmond, Yorktown and Jamestown.

Miss Sue Hinkle is attending Stanford University and will not return to Mills College in Oakland.

Miss Mary Pronzato, high school teacher, enjoyed the holiday season in her own home town, Fort Bragg, Mendocino County, returning for the opening of school on Monday.

The rush is on once more for new license plates which may be secured this year at the Truckee checking station, thus eliminating much bother and delay. Many Tahoe residents took advantage of the good weather to attend to this necessity before another storm hems them in once more.

From our voluminous Christmas mail bag we learned — that Governor Richard Kirman and family at Carson City enjoyed their happiest Christmas in three ears as Dick, Jr., (now well on the road to perfect health again) his wife and little girl joined in a Yuletide reunion . . . that the Everett Prusso family who celebrated this year in rain-drenched Palm Springs felt cheated in not being able to spend Christmas at Tahoe, "where the coyotes howl and the wind blows free" . . . that James Wilson, Tahoe resident spent the holiday in Los Angeles where many friends abound . . . that Captain and Mrs. George Mawdsley of Oakland send best wishes to their friends in Tahoe . . . that the Joe Duffees and daughter, Eunice, will continue for some weeks yet in Oakland . . . that Walter Rounsevel and Mrs. Sarah B. Hewes announce Castle Hot Springs, all freshly renovated, opened its doors on December 26 with every indication pointing to an exceptionally good season, and that Mr. and Mrs. Dave Chambers, now residing in Woodland are keeping a watchful eye on the 'Tahoe Region News' column of the Sierra Sun.

Harry Henrikson of Lake Forest is now a resident of San Francisco where he has secured employment. He visits his family here when it is convenient.

Mr. and Mrs. Jack Hale of Meek's Bay, James Ferguson, Charles Swanson and Carl Bechdolt were business visitors in Truckee Monday.

Due to uncertain weather conditions, the H and W Club of Meek's Bay postponed their meeting last week until yesterday at which time the election of officers for the ensuing year and initiations were held.

Mrs. John Maderos and her mother Mrs. George Bacchi of Lake Forest spent three days vacation recently in Sacramento. Frank Bacchi spent the Christmas holiday at Vallejo where he visited Miss Clara Arletta.

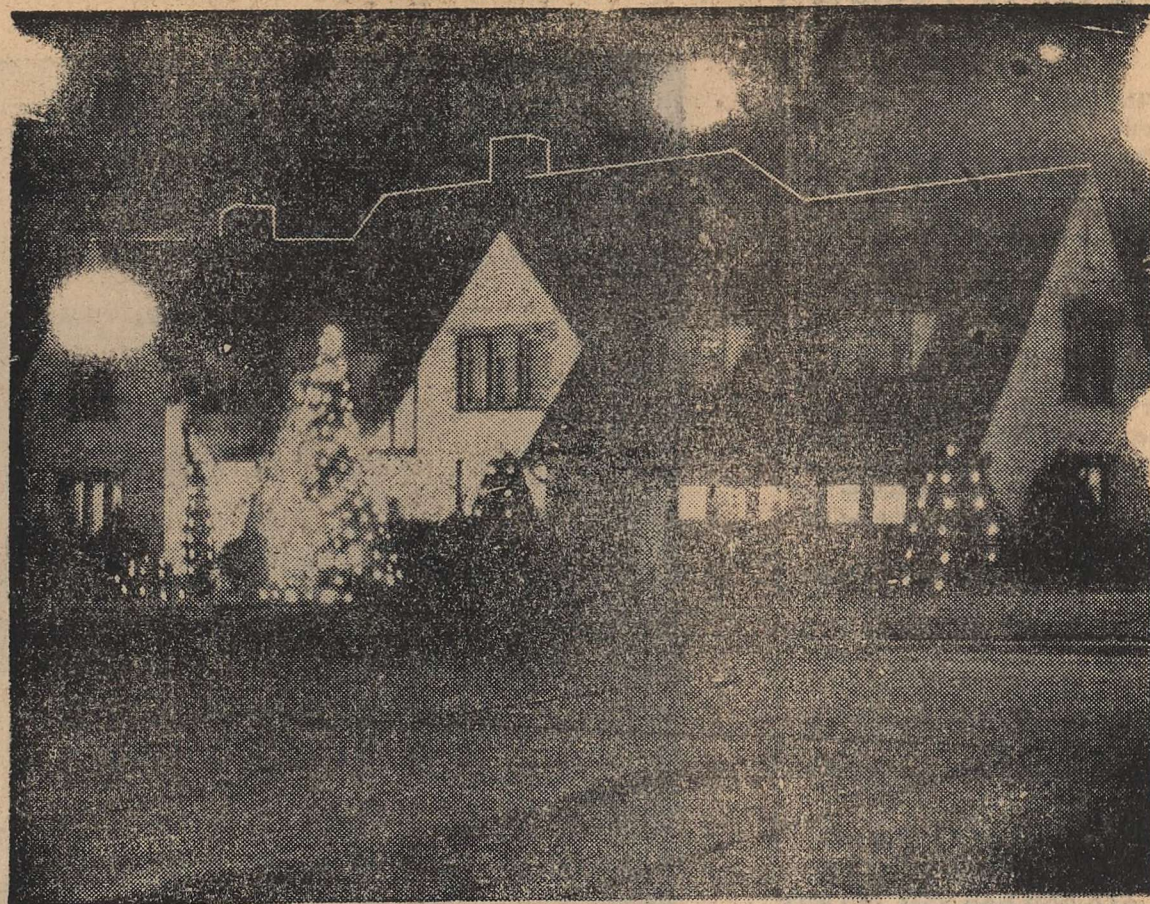

Dr. Lester D. Henderson and party who motored up from San Jose to spend the holidays at Brockway Vista, changed their plans when their car stalled on the highway at Lake Forest and they took refuge at Wagner's Camp instead.

Others who spent the holidays in the Brockway district was Mr. and Mrs. J. H. Mollison and daughter of Atwater and Mrs. H. P. Phillips and two sons of San Francisco who occupied two of the Nelson cottages; a group of 25 boys and girls from Modesto who stayed at Camp Tawanda near Tahoe Vista; Mr. Harold Payne of the Brockway Mercantile Company, who came up from Auburn with her two sons to enjoy the family home over the holidays, and Jimmy Cory, Phillip Haywood and Jimmy Oxtor whose homes are at Stockton.

Mr. and Mrs. John Rarum of Buckhorn Inn spent New Year's eve with friends in Stockton.

Mr. and Mrs. Art Holman of Kings Beach, saw the old year out with a group of friends in Reno.

Where Kidnaper Struck

Christmas trees are ablaze with lights in front of the Tacoma, Wash., home of Dr. and Mrs. William W. Mattson, whose son, Charles, 10, was kidnaped Sunday. The home is within a few blocks of the Weyerhaeuser residence in Tacoma where little George Weyerhaeuser was kidnaped in May, 1935.

Child Kidnap Victim

Charles Mattson, 10, son of Dr. and Mrs. William W. Mattson of Tacoma, Wash., for whom law officers of the Pacific Northwest and special details of G-men are searching since his abduction Sunday. The boy was forced to write a ransom note by his kidnaper whom authorities fear is a maniac.

A group of ten fraternity boys enjoyed the week end holidays at the Schwartz home near the Fleishhackers.

Leo Miner, son of Mrs. Frank Armstrong is assisting D. M. Brodehl, Tahoe mailman, in the absence of his son who left for the east to handle a mail contract there.

Among Tahoe residents who saw the old year out in Truckee were the A. M. Henrys and the N. R. May fields, who enjoyed dinner there before attending the dance.

An icy west wind is blowing as this goes to the printer and the barometer is dropping steadily which would indicate a new storm is heading this way. With the wood all in the larder well filled and good radio programs available — who cares.

Armand Swenson, who recently departed from Tahoe for the bay cities writes this week requesting his address be published in this column for specific reasons. We herewith insert it for those interested — 6320 Idaho street, Oakland.

O. C. Sween of Rubican Park Camp left hurriedly on Saturday for Stockton when notified of the unexpected death of his mother there.

Adler Larsen, Reno contractor, was a visitor in town on Friday. He found it necessary to hire a boat to get to Glenbrook where he rescued eight of his men who had been snowed in, the highways being impassable with snow drifts.

Most of Thursday and Friday were spent by this correspondent in telephoning all lake resorts for information regarding the Carl Diesendorf family of Oakland, who were believed at first to have been lost in the Lake Tahoe region. These stories of marooned motorists should serve as a warning to those inexperienced in the hazards of the snow country.

M. W. Hull of San Francisco, son of Mr. and Mrs. H. H. Hull of Tahoe City, accompanied by his wife and

Mr. and Mrs. C. W. Vernon of Tahoe City entertained Mrs. Gerda Henriksen and her two sons, Oliver and Charles and Joe Pomlin at a New Year's eve dinner.

John Pingree's garage was the first building reported to have collapsed under the weight of the first snow fall.

Mrs. C. E. Mandeville of Brockway will be the next hostess for the newly formed Brockway sewing circle, refreshments to be served at the conclusion of the sewing period.

Mrs. Dick Fisher and John Stevens assisted at Tahoe Inn in caring for the overflow of holiday patrons over the week end.

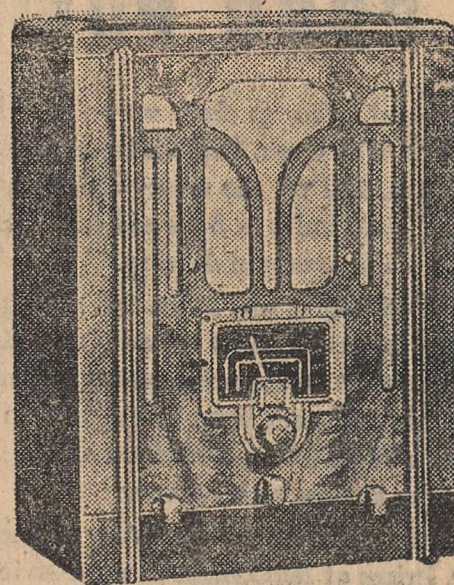

Deputy Sheriff Charles Swanson was called out on Tuesday to put out of misery a black and white dog. The animal had received a broken back early in the morning when it was struck by a passing machine, and lay for hours howling on Mrs. Ed Wagner's front porch. Ownership of the dog is unknown.

The William Wallace Mein home at Tahoe Park was opened for the New Year's holiday, a houseparty being enjoyed by Mr. and Mrs. Thomas Mein and Charles DeBretteville all of San Francisco and Miss Francis Mein of Woodside.

Three different newsreel cameramen, guests of Sierra Tavern in Truckee, spent most of Sunday afternoon in filming movies of Constable Harry Johanson's splendid team of Alaskan huskies. Harry donning his Arctic 'parka' for the occasion.

Here From Woodland— Mr. and Mrs. Charles L. Eddy and Mr. and Mrs. Marvin Anderson, all of Woodland were enjoying the snow sports here Sunday afternoon.

DRIVERS WARNED TO BEWARE OF CARBON MONOXIDE GASES

SACRAMENTO, Jan. 7.—Carbon Monoxide.

A danger unseen, unnoticed, but very real rides with the motorists during the winter months Ray Ingels, director of the state motor vehicle department, warns.

This danger, Ingels explained, is carbon monoxide, an odorless, tasteless, but deadly gas generated by the motor and swept back into the car or cab by the action of the fan of the motor. Where floor boards are loose and windows closed there is no way for the gas to escape and the driver is poisoned, without his knowledge.

"Carbon monoxide," the director explained, "undoubtedly is the cause of many so-called unexplainable accidents. To keep warm, the driver closes the windows when he should put on more clothes; this subtle gas enters, has no way of escape, and the driver becomes unconscious."

STATE INSURANCE FUND GROWING AS \$10,000,000 ON HAND

SACRAMENTO, Jan. 7.—(UP)—California now has \$10,000,000 in its unemployment insurance fund and \$4,000,000 still is due, according to the unemployment reserves commission.

Charged with the task of collecting funds from employers and the employees alike, the commission contemplated the year's activities as the "culmination of the first definite move toward establishment of a fund designed to alleviate the terror of unemployment."

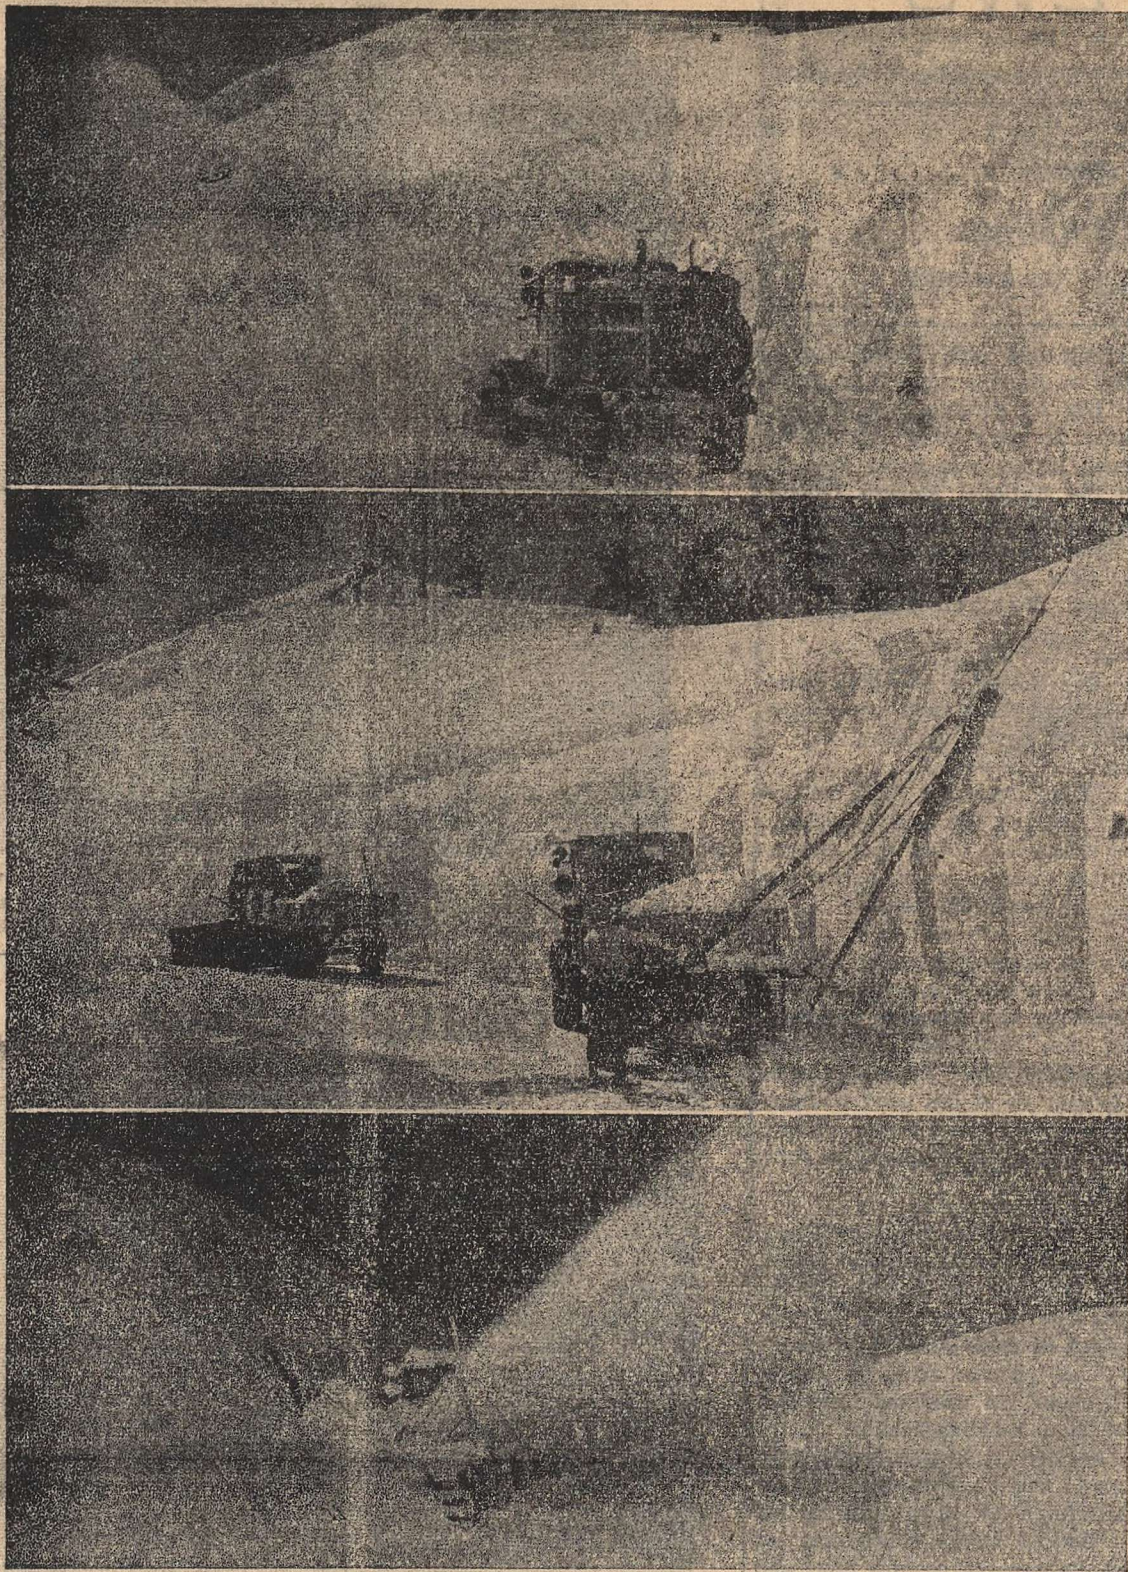

Members said the fund to date represented collections from approximately 16,000 employers and 1,200,000 employees throughout the state.

It was pointed out that in 1937, double the amount paid would be turned over to the insurance fund. Commission members said they expected the payments to be in excess of \$28,000,000 next year "due to improved business conditions resulting in increased employment."

Giant Snowplows Battle Donner Summit Drifts

Each winter the Highway Department of the State of California has crews of men and huge snow plows employed to keep the highway over Donner Summit free of snow. The

above scenes are typical of the day and night operations which make it possible for traffic to be maintained over Route 40. The big plows manned by experts, make fast work of

the huge drifts which cover the road during the winter season. —Photos are reproduced through the courtesy of California Highway and Public Works Magazine.

HOBART MILLS

After a high wind blowing and with a falling barometer on Monday, another snow storm started in this section and over a foot of new snow fell Monday night and Tuesday morning. The Truckee stage was unable to get out with the mail Tuesday and the high school students were unable to get to classes. The mail came out on the Hobart Estate truck. When the truck got as far as the top of Dalley Hill on Tuesday morning they found a car stalled in the snow. The driver had taken the wrong road out of Truckee and was headed toward Hobart Mills when the car stalled. The man and his wife spent the night in the car while waiting for aid to reach them.

G. D. Oliver arrived in town Monday afternoon from his home in Berkeley and will spend a few days here.

Mr. and Mrs. Ray McDonald and sons returned to Sacramento Sunday after enjoying the holidays with relatives in town.

Mr. and Mrs. Harry French have returned to their home after a three-weeks visit with relatives in Modesto.

William Hastings has returned from a two weeks holiday visit with relatives in Los Angeles.

Buddy Sullivan of Redwood City who visited Mr. and Mrs. A. D. Murray, over the New Year's holiday has returned to his home.

Morris Cardinal and wife, accompanied by their son, Heslin Cardinal have returned from Fresno where they spent the holidays.

Mrs. Walter Viggers returned to her home at Sacramento after a visit of a week in town.

Jack Chubbuck of Forbestown spent Christmas visiting his mother, Mrs. Cora Chubbuck.

A. Clairbour has returned from San Francisco where he spent the holidays.

Bob Lenville has returned home from San Francisco where he had spent the past few weeks and has resumed his work at the boarding house.

Mr. and Mrs. Austin Otis were visitors in Oroville on Monday.

James Percy of Oklahoma is visiting at the home of Mr. and Mrs. D. Lacy.

Theodore Thibault is confined to his home by illness.

MINER RESCUED

GRASS VALLEY, Jan. 7.—Snow-bound for more than a week with only flour and coffee for sustenance, Paul Muller, 54, Dutch Flat miner, was rescued from his cabin and brought to an Auburn hospital in a serious condition from privation and hunger.

MAN FASHIONS HIS OWN TOMBSTONE

Louis Conner, well known monument maker of Hills Flat passed away at the age of 84 years. He had been ill for some months. Anticipating his death many years ago, M. Conner engraved his own tombstone purchased a casket, and had his grave plot selected and paid for. He was a lineal descendant of Patrick Henry. W. R. Jefford and son are in charge of the obsequies.

—Nevada City Nugget

ALL WHITE LABOR MAY BE EMPLOYED TO HARVEST CROPS

SACRAMENTO, Jan. 7.—(UP)—Possibility that California crops may be harvested almost entirely by native white labor in the near future was revealed in a report of the department of industrial relations.

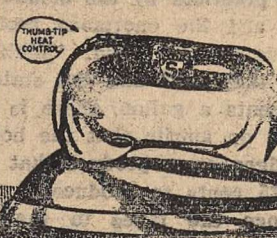

Some interesting changes are now taking place in the type of labor coming into the agricultural sections of the state," said the report.

"Thousands of jobless are coming in from the drought and rural areas of Oklahoma, Texas, Arkansas, Missouri and Kansas. Some of these, however, are Californians who had previously left the state in search of work.

"The greater portion of these transients, however, are white—with only a small percentage being Mexican and Filipino and a few negroes. These brown races are just migratory agricultural workers, while the white coming in are largely drought refugees."

Miss Margaret Landrith has returned to Reno to resume school after a two weeks' visit at the home of her parents.

WAGE CLAIMS ARE COLLECTED BY STATE

SACRAMENTO, Jan. 7.—(UP)—Wage claims totaling \$48,551.58 were collected by the department of industrial relations during November, 1936, compared with \$38,353.88 in the same month a year ago, Director T. A. Reardon reported.

Adjustments for the month totaled 1281 this year, while 1104 claim were settled in November, 1935. An average of \$37.90 per claim for unpaid wages was collected.

During the month 2151 complaints of violation of labor laws were received by the department, as against 2164 in the like period last year.

ALTERATIONS AT COURT HOUSE MADE

Alterations costing \$12,000 are to be made in the sheriff's office, it was revealed today. A new office for the sheriff and his deputies will be constructed over the present furnace room, and the jail itself will be thoroughly renovated and remodeled. The present quarters of the sheriff will be occupied by the probation officer when the alteration are completed. The treasurer's office will be moved down stairs and the room now occupied by him will be taken over by the superintendent of schools.

—Nevada City Nugget

"Go forward"

THE divine command voiced by the prophet Moses when the children of Israel were halted by the seemingly impassable waters of the Red Sea, on their way out of the land of bondage, still has power to compel obedience and to put to flight doubt, hesitation, and indecision. The command was, "Speak unto the children of Israel, that they go forward." To go backward meant slavery and submission to hard taskmasters; to go forward demanded courage and faith in a power unknown to the material senses. Speaking of Moses as a leader, Mary Baker Eddy writes (Science and Health with Key to the Scriptures, p. 200), "Moses advanced a nation to the worship of God in Spirit instead of matter, and illustrated the grand human capacities of being bestowed by immortal Mind."

Along the journey of individual spiritual progress, the encouraging command to go forward can still be heard by those who may be trembling in the valley of decision. To awake from the bondage of enslaving conditions is one step towards spiritual freedom, and to demonstrate the way out of such conditions demands a continual going forward. The Apostle Paul, comparing his spiritual progress to a race in which the athlete keeps his eyes continually on the goal, said, "This one thing I do, forgetting those things which are behind, and reaching forth unto those things which are before, I press toward the mark for the prize of the high calling of God in Christ Jesus." Like many of us today, Paul had much to regret, but he wasted no time in looking backward. The spiritual light which had awakened him on the road to Damascus blotted out the mistakes of the past, and he went forward in obedience to the heavenly vision.

The understanding that man is spiritual and not material brings hope and encouragement to those who are struggling against sickness and sin—discord of every kind. In order to advance spiritually we need to understand "the grand human capacities of being," and allow no thought of fear to prevent us from claiming and proving our spiritual dominion. Through the application of the teachings of Christian Science

we begin to prove, little by little, that man is the image and likeness of God, and that he has dominion over all the earth.

Various wrong conditions of thought attempt to impede our progress, but we can overcome them through the power of Truth. Among these are fear and self-pity. We may fear that we are unable to work out our problems. We may fear the past or the future. Like the Israelites of old we may believe that an impassable sea stops our progress. But there is always a way through the troubled waters if we are obedient and take the first step in denying fear and obeying the divine command to "go forward."

Self-pity may argue that our problem is more than we can bear, that no one else has such a hard road to travel. Perhaps custom, tradition, love of ease, may whisper, "It had been better for us to serve the Egyptians, than that we should die in the wilderness."

Discouraging thoughts are false suggestions of mortal mind, which try to prevent our spiritual progress, and they can be overcome through the understanding of the allness of God, good, and the consequent powerlessness of evil.

In "The First Church of Christ, Scientist, and Miscellaneous" (p. 232) Mrs. Eddy writes, "The right way wins the right of way, even the way of Truth and Love whereby all our debts are paid, mankind blessed, and God glorified." Every spiritually progressive step glorifies God and blesses mankind; and that which benefits one must benefit others also. We can confer no greater benefit on those around us than to prove our own individual spiritual dominion. The knowledge of such dominion includes recognition of our neighbor's rights, and there can be no friction where there is loving obedience to divine Principle; but the kingdom of God must first be established in our own thinking if we are to be of help to our neighbor. The right way is the way not of self-will, but of obedience to divine Principle. The right way is the way Love points out; and though to material sense it may seem clouded and uncertain, this way is always clear to spiritual sense. . . . To those who have tasted the joys of spiritual victory, there can be no turning back. To go forward is the only way.—The Christian Science Monitor

The cheapest Health and Accident Insurance you can buy

Good Lighting

IS GOOD POLICY!

IT IS good policy to check up on your lighting at least once a month. Replace lamp bulbs that have grown dim. Fill up the empty sockets and replace the small sized bulbs in floor and table lamps before headaches and eyestrain develop.

It is good policy, too, to see that the light on your porch or basement stairs is really good light. Most dangerous falls on stairs are caused by a misstep due to shadows and poor light. In the kitchen many cuts and burns might be avoided if just a little better light was by the kitchen sink or stove.

Good floor and table lamps today are inexpensively priced. Prices of lamp bulbs in light-saving sizes are lower than ever and the reduced electric rates make better lighting a truly low cost monthly item. Check over the lighting in your home today.

MARRIED MEN BEST DRIVERS, REPORT BY CHIEF SHOWS

SACRAMENTO, Jan. 7.—(UP)—Single men probably won't admit it, but, according to Ray Ingels, state director of motor vehicles, they are outclassed as automobile drivers by married men.

The director so reported to a meeting of the governor's cabinet here. Department records, he said, show many single men, formerly listed as habitual violators of traffic laws, who became model drivers after they were married.

"Perhaps the greater responsibility serves to curb their reckless tendencies," he suggested.

DIPLOMAS GIVEN POOR DRIVERS IN STATE PROGRAM

SACRAMENTO, Jan. 7.—Diplomas for bad drivers.

To combat the mounting toll of highway deaths and injuries, the state division of drivers' licenses, during the past year, has mailed warnings to 276 habitual violators of traffic laws, Paul Mason, chief, reported.

The warnings resemble diplomas and notify violators that the division has sufficient abstracts of court records to show they are in the habitual class. They are notified that if

USE TAX PREVENTS SAVING BY BUYING CAR OUT OF STATE

SACRAMENTO, Jan. 7.—(UP)—California automobile buyers do not escape payment of the sales tax by purchasing their cars in other states the state board of equalization reported.

Under the state's use tax, it was explained, such purchases are assessed the 3 per cent equivalent of the sales tax. A report of the purchase is required by law. Failure to report the transaction is subject to a heavy penalty.

"Anyone who seeks to save money by buying an automobile outside the state to escape the sales tax may find it extremely costly in the end," the statement said.

they receive other tickets, their licenses will be revoked.

"So far we have had good results from these warnings," Mason said. "To date but 12 per cent of those who have received these diplomas have failed to heed them, although we may expect this percentage to be increased."

Those who receive warnings and get subsequent citations for major traffic violations, Mason explained, will have their licenses revoked, but have the right to a hearing, at which time they may present their side of the case.

Santa Monica Home Wrecked

The heavy gale in Southern California this week swept away the foundations of this home, owned by E. C. Plumb and known as Candlewick Cottage, on the ocean highway near Santa Monica, Cal.

as a prison site have been started.

No increase for the seven state teachers colleges and the University of California will be set up in the administration budget, Governor Frank F. Merriam indicated. The various educational institutions had asked for increases in their budgets totaling almost \$3,000,000. The fight for more money was to be taken directly to the legislature.

Nearly 2,500,000 cards indicating the amount of "Inlieu" tax due on motor vehicles in the state have been mailed to motorists. The tax, based on a rate of \$1.75 per \$100 assessed valuation, must be paid before automobile licenses can be issued.

Both Governor Merriam and Earl Lee Kelly, state director of public works, indicated they favor a reduction in the 65-cent toll on the San Francisco-Oakland bay bridge, "if it can be done in keeping with sound financing practices." Recent agitation has been in favor of a 25-cent rate.

POLITICALLY SPEAKING

(Continued from Page 2)

ing such a development.

Despite the improvement in business conditions and the lowering of the relief load, those whose duty it is to administer direct relief figure the state will need to appropriate just as much this time as it did two years ago, or \$48,000,000.

While Merriam has not decided how much relief money he will seek from the legislature, he said he would hold down the relief appropriation just to keep the budget within control.

"We will meet the situation honestly and appropriate as much as we think we will need," he said.

It is understood he opposed making a small appropriation with the idea of calling the lawmakers into special session a year later to increase the amount available for relief. Also, fiscal officials feared that if too much was appropriated, the relief administration may spend more than was needed.

This Week At The State Capitol

By MELVIN LORD
United Press Staff Correspondent

SACRAMENTO, Jan. 7.—(UP)—California's state capitol again was one of the busiest places in the state as preparations were completed for the arrival of 120 lawmakers and the opening of the 52nd session of the legislature.

Committee rooms have been remodeled, the assembly's new permanent electric voting machine was tested and approved, and repairs to the senate chamber were completed.

As the legislators arrived, the election of William Mosley Jones, Southern California liberal democrat, as speaker of the lower house, was conceded by republicans and democrats alike.

Election of Jones will give the Bourbons complete control of the important committees in the assembly, a situation that has no duplicate since pioneer days.

The republicans maintained their traditional control in the more conservative senate, with 25 of the 40 votes.

California's automobile death toll continued to increase with an estimate of more than 3,000 automobile fatalities for the year. Complete figures will not be available for some time, motor vehicle officials said.

Last year the highway deaths totaled 2,806. The 1936 high record represents a gain of 5 per cent in the number of accidents and 8 per cent in the total fatalities.

The gain was attributed mainly to a substantial increase in the amount of vehicle travel during the year.

Despite receipt of a petition bearing 250 signatures protesting establishment of a new state prison for first offenders near Chino, state officials indicated that plans would be pushed for the institution. Condemnation proceedings for 1,300 acres of specialized services in schools, particularly such classes as domestic science, music and fine arts, all of which took an upward trend in 1936.

INCREASE NOTED IN SALARIES OF PLANT EMPLOYEES

SACRAMENTO, Jan. 7.—(UP)—Employment increased 7.6 per cent in California manufacturing industries during November compared with the like month of 1935, the state division of labor statistics and law enforcement reported.

Payrolls in the industries increased 17.5 per cent over a year ago, with the average weekly earnings \$27.86, representing an advance of 9.2 per cent.

SCHOOLS HAVE BEST YEAR AS MILLIONS OF DOLLARS SPENT

SACRAMENTO, Jan. 7.—(UP)—California's public school system advanced materially during 1936, according to Vierling Kersey, state director of education.

In a summary of the year's educational accomplishments, Kersey pointed out that a total of 550 school building projects were completed at a total estimated cost of \$25,000,000. "This work has been stimulated by earthquake safety, new building needs and federal funds," Kersey said.

"No decade of years has equalled the one of 1936 in the progress made in minor repairs and the improvement of school grounds for play use and beautification. A total of \$6,427,762 was spent for these purposes during the year."

Pointing toward the need of improvements, the director said:

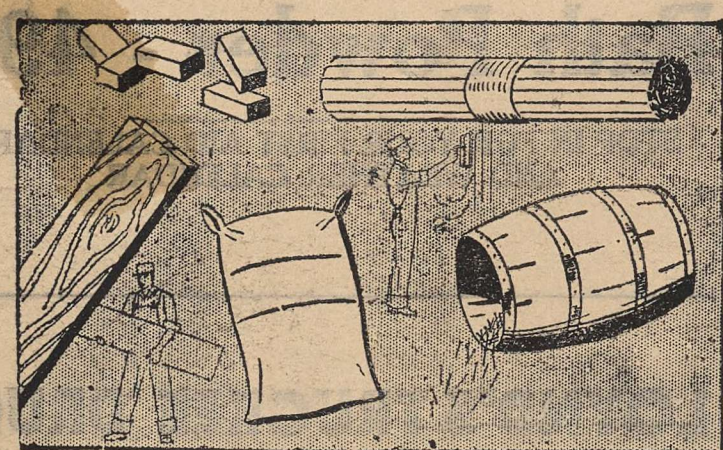

"The facilities for high school education and junior college education—opportunities were taxed in 1936 more than ever before because of the seeming determination on the part of parents, youth and employer that all young people of California shall graduate from junior college before they go to work."

"High school graduation is the standard of educational attainment expected of the youth of California. The year clinched this among employers and parents."

"A total of 50,000 migratory, traveling trailer-home children have taxed the emergency facilities throughout the state during the entire year. These youths present one of education's greatest problems and, with signs of increasing advancement of employment opportunities in agriculture, indicate increase rather than lessening of the number of children involved."

The director further pointed out that the year has seen the return

Mattos Ice & Beverage Co.

Box 42 :: JOE MATTO :: Truckee

School in Sacramento—

Lavonne Joseph left Truckee after the recent vacation, to enroll in the Christian Brothers' College in Sacramento.

Away for New Year's—

Mr. and Mrs. V. V. Gilman and family have returned to Truckee after an enjoyable week end spent with friends and relatives in Truckee.

Home Again—

Mr. and Mrs. Frank Powell have returned home following a trip to Sacramento and Roseville and re-

port unfavorable weather in the valley areas.

Guests from Capital—

Mr. and Mrs. Dan Wachhorst and Miss Thelma Wachhorst of Sacramento and Charles White, Jr., also of the capital city, were the week end guests of the latter's parents, Mr. and Mrs. Charles B. White.

Attends Session—

Supervisor Alex Robertson of Hobart Mills attended the January session of the Nevada County Board of Supervisors at Nevada City this week.

To Attend Aviation School—

Eugene Barton left Saturday to attend the Boeing Aviation School in Oakland.

Judge Goes to City—

Superior Judge Raglan Tuttle left Nevada City on Monday for a business trip to San Francisco.

Here from Richmond—

Mrs. C. H. Noyes of Richmond is visiting at the home of Mr. and Mrs. E. L. Loynd. The visitor is Mrs. Loynd's mother.

Mrs. Smith in Carson—

Mrs. C. E. Smith is visiting with relatives in Carson City.

Former Resident Breaks Arm—

H. W. Wilkie of Alameda, who is a former resident of Truckee was unfortunate when he fell and broke an arm recently, according to word received here. He is said to be recovering satisfactorily, however.

Name Chairman—

E. B. Dudley who has held that position for the past six years, was re-elected chairman of the Nevada county board of supervisors last Tuesday.

NEVADA SOLONS TO SEEK TO LEGALIZE STATE LOTTERIES

RENO, Jan. 7.—(UP)—Nevada would like citizens of California and other states to pay her taxes, and it is really quite simple the way the strong bloc of state legislature would arrange it.

The lawmakers have been watching a few individuals grow prosperous through legalized gambling under liberal Nevada laws. They figure the state itself should go into the business. A monthly state lottery with a minimum gross of \$1,000,000 would do the trick.

Estimating that 90 per cent of the lottery money would come from out of the state, Senator William Marsh and Assemblyman Pot Cline will seek repeal of the present ban on lotteries. They will introduce a bill in the legislature January 18 to provide funds for circulating initiative petitions in a move they hope will legalize the plan by the end of 1938.

At Hobart Hospital—

Mr. J. Percy of Hobart Mills went to Letterman hospital in San Francisco for treatment to speed the recovery of his health, according to advices received here.

School Notes

At a special session of the student council held on Monday, two amendments to the school constitution were proposed. The first insured the permanent membership of the student body in the California Inter-School Athletic Federation. The same amendment will provide for an athletic manager to supervise the student body activities.

The second amendment was to insure permanent re-registration in the Junior Statesmen of America.

Miss Anna Munro announces that the tentative staff of the Static for the semester will be as follows:

Miss Munro, faculty advisor; Ruth Seibold, editor; Betty Shone, associate editor; Douglas Barrett, managing editor; Floy Patricia Duncan, assistant managing editor; Frank Giovannoni, sports editor; John Sabini and Ida Stewart, sports staff; Robert Gordon, art editor; Bob Bowers, joke editor; Henry McCloud, assistant joke editor; Class reporters August Sassarini, senior; Frank Titus, junior; Mary Pierce, sophomore; Jack Duncan, freshman.
